

ECO-BLAST

Cement Truck Cleaner

Product Description

ECO-BLAST is an Eco-Friendly, bio-degradable concrete remover designed for dissolving concrete buildup and residues from Ready-Mix cement trucks, tools, equipment, molds, forms, concrete storage vessels, and containers. ECO-BLAST does not contain strong inorganic acids, such as hydrochloric or sulfuric acids, and by design ensures personnel safety and lowest possible operating costs.

When used as directed this product completely dissolves Portland Cement at the molecular level, turning it into a soft sludge which is easily washed away. ECO-BLAST is safe to use on all surfaces and does not require an additional neutralization step as many harsh chemicals do.

Uses & Directions

Use ECO-BLAST to remove build-up from Ready-Mix trucks, tools, equipment, molds, forms, concrete storage vessels and containers.

Apply ECO-BLAST undiluted via pump sprayer or manually onto surfaces. Wait at least 30 minutes (allowing to react overnight or between shifts is acceptable). Power-wash equipment and parts to remove residual concrete.

Extremely heavy residuals may require two treatments.

Health Hazard Summary

Causes severe irritation and burns to skin. Causes severe burns and damage to eyes. Mists and spray can be irritating to eyes, nose, throat, and respiratory tract. Harmful or fatal if swallowed.

Specifications

Appearance	Clear, water white liquid
pH	1.5 - 2
Specific Gravity	1.067
Flash Point	None
Dilution	Use undiluted
Foam	Low-Moderate
Hard water Tolerance	Excellent
Ammonia	None
Butyl	None
Phosphate	None
Storage Stability	Excellent, 1 year under normal conditions

Clean Water Act 311	NOT Regulated
Clean Air Act 112(r)	NOT Regulated
SARA 313 Toxic Release Act	NOT Regulated
California Prop 65	NOT Regulated

Package & Handling

55 Gallon Drum	JBC25465
275 Gallon Tote	JBC25466
