

LIQUI-FIRE RX

Latex & Resin Pre-Solve

Product Description

LIQUI-FIRE RX is a specially formulated solvent stripper for the tank cleaning industry. Recommended to be used non-diluted or thinned out for consistent results and performance. LIQUI-FIRE RX completely strips away resins, leaving no films or residues on the tank surface to hinder tank cleaning when used properly.

Uses & Directions

Use LIQUI-FIRE RX to remove Resins, Latexes, Adhesives, Isocyanates, from Stainless Steel tank wagons, IBC's, and ISO tanks.

Do not dilute with any other solvents. **Use as is.** For best results apply with a Presolve system from dome lids and cleanout or vent caps, without entering the tank. Recirculate with a pump system. For best results, seal up tank and allow to stand for 30 minutes after application

Keep container closed when not in use. Disposal of spent product should be in accordance with all state and federal regulations.

Health Hazard Summary

Vapors can cause nausea, dizziness, nausea, stupor, vomiting, headache, and/or irritation to nose, throat, and respiratory system. Irritating to eyes and skin. Causes irritation to eyes. Prolonged exposure may irritate skin.
