

TANKMASTER FG

Food Grade Detergent

TANKMASTER FG is a special heavy-duty detergent designed for cleaning food handling and processing equipment. TANKMASTER FG is a blend of builders and alkalis and detergents and wetters that rapidly penetrates, lifts, and removes dirt, grime, grease, fat, and other food soils from food handling and processing equipment and surfaces. TANKMASTER FG can be used by hand or through any type of pressure washing equipment to clean equipment, floors, walls, etc. TANKMASTER FG rinses freely and completely, leaves no residue or odor, and is biodegradable.

For tank cleaning with a recirculation system, pre-mix a 3% solution (by volume) of TANKMASTER FG. For best results, wash should begin at 195° F. Food grade sanitations may require a follow-up rinse at temps greater than 180° F.

For steam cleaning or pressure washing apply through downstream injector at 1-2% by volume.

SPECIFICATIONS FOR TANKMASTER FG

Appearance.....	clear, water white liquid
pH.....	13.2±.5
Specific Gravity.....	1.03
Flash Point.....	None
Dilution.....	Up at 3% with water
Foam.....	Moderate. None above 140°F
Hardwater Tolerance.....	Excellent
Ammonia.....	None
Butoxyethanol.....	None
Other Solvents.....	None
Phosphate.....	None
Storage Stability.....	Excellent, indefinite

HMIS RATINGS			
Health	2	Flammability	0
Phys Haz	0	Personal Protection	B

PACKAGING
55 gallon, JBC24715
