VAPO-SCRUB

Vapor Scrubber Deodorizer

VAPO-SCRUB is a Super concentrated blend of essential oils in a non-foaming configuration, and is extremely effective in the masking of vapors in scrubbers. Designed for the tank washing industry, where a wide variety of products come to a facility with objectionable odors. These odors should be dealt with due to health and safety concerns for employees, as well as for being a good neighbor to nearby facilities and buildings.

Use VAPO-SCRUB in vapor scrubbers to mask vapors being released into the atmosphere. May be diluted up to 3:1 effectively, however, more dilution equates to diminished longevity.

VAPO-SCRUB should be added to vapor scrubbers undiluted. Do not under-fill vessels, as vapors need a substantial amount of time to travel to the surface in order to be effective. This product may be added to VAPO-SORB effectively if only one vessel is available.

SPECIFICATIONS FOR VAPO-SCRUB

Appearance.....	Clear, red liquid
Odor.....	Cherry fragrance
pH.....	7 ± .5
Specific gravity.....	1.0
Solubility in water.....	Complete
Use Dilution.....	Up to 4:1 with water
Biodegradable.....	Yes
Hard water tolerance.....	Excellent
Phosphate	None
Butyl Cellosolve.....	None
Flash point.....	None
Storage Stability.....	Excellent, 1 year minimum
