

OXY-GENIC

Peroxide Based Mildew Remover

OXY-GENIC is a specially formulated cleaner, designed for use in areas affected by uncontrolled humidity, where mold, bacteria, and mildew have overrun working and/or living environments. OXY-GENIC does not contain petroleum solvents, butyls, or corrosive ingredients such as caustic soda, phosphates, ammonias, etc. This product may be used in no-rinse applications, allowing the operator to increase cleaning efficiency. Synergistic action of surfactant system with hydrogen peroxide breaks down into water and oxygen after use, thereby enhancing the environment. This product is 100% biodegradable.

Use OXY-GENIC on a variety of surfaces, such as wall, floors, countertops, machinery, stainless steel, trailers, reefers, sea containers, cold storage areas (down for repair), and many others.

OXY-GENIC should be used undiluted for heavy duty cleaning and mildew removal. The use of an air driven foaming device is highly recommended, but not mandatory.

Daily Mopping: Use 1 oz. per gallon of water
 General Cleaning: Use 2 oz. per gallon of water.

SPECIFICATIONS FOR OXY-GENIC

Appearance.....	Clear water white liquid
Odor.....	None
Specific Gravity.....	1.0
pH.....	2.8 - 3.4
Flammability.....	Non-flammable
Dilution.....	Up to 128:1 with Water
Foam.....	Moderate
Hardwater Tolerance.....	Excellent
Solubility in water.....	Complete
Biodegradable.....	Yes
Butyl.....	None
Phosphate.....	None
Storage Stability.....	Excellent - 6 months under normal conditions

HMIS RATINGS			
Health	1	Flammability	0
Reactivity	0	Personal Protection	B

PACKAGING
55 gallon, #5328-03P
